APPLICANT ORGANIZATION Alaska Village Electrical Cooperative Award 343-07		DATE SUBMITTED 5/08/08

***Award Conditions to the Financial Assistance Award
Between the Denali Commission and
Alaska Village Electrical Cooperative for
Hooper Bay Wind Turbine Access Road Construction
Award No. 343-07
April 2008***

1. Scope of Work

Denali Commission is providing \$181,513 in Section 1960 SAFETEA-LU funds for the subject project. The State of Alaska is providing \$18,018 in General Funds for the required match and Alaska Village Electrical Cooperative (AVEC) is providing \$20,000 to the estimated project total of \$219,531. Denali Commission funds and match funds will be managed by AVEC.

This project upgrades approximately 1,100-foot (.21 miles) of an existing all-terrain vehicle trail that provides access to the community's cemetery and access to the site of three proposed wind turbines. The right of way starts at Lagoon Road near the entrance of the new community sewage lagoon and ends at the future wind turbines. The road section will be two 8-foot travel lanes and four-foot side slopes, for a total roadway width of 24 feet. Maximum grade is 1% with total elevation gain of 4 feet to the turbines. Building materials will be local "granular fill free of organics" compacted over non-woven geo-textile road building fabric.

The project sponsor, AVEC (Recipient) has demonstrated the administrative capability for managing Denali Commission funds, as documented by the Denali Commission Transportation Program Manager (Manager) and retained in the subject award file. Denali Commission, in consultation with the Federal Highway Administration, Alaska Division (FHWA) will provide financial management and project development technical assistance throughout the project to assist in successful project execution.

All payments for design and/or construction tasks associated with the subject project are on a reimbursable payment basis.

Contractual and consulting services used in this project shall be procured in an open and fair competitive manner, consistent with the Federal Acquisition Requirements (FARS) and other applicable federal law.

Contractual services procured through sole-source contracts, or through processes that do not meet the FAR and/or Title 23 requirements, will not be eligible for Denali Commission funding.

Prior to starting the competitive-bid process for design engineering and/or construction management services, the Recipient will meet in a pre-bid meeting with the Manager to review the procurement process.

The Manager, in consultation with FHWA, will work with the Recipient to develop a procurement process applicable to project conditions. The Manager will approve the procurement process prior to advertising for design engineering and/or construction management services.

Subsequent to the successful award of a design engineering and/or construction management contract, the Recipient, the successful firm and the Manager will conduct a post-award meeting to review FHWA requirements associated with the contract tasks.

DESIGN

Design development and management will begin with a competitive bid process for design engineering services that meets Title 23 USC requirements, including advertising in regional and statewide publications. Prior to advertising, the project sponsor will submit the procurement process and advertising package to the Manager for approval. Subsequent to selection, the Recipient will conduct a post-award meeting as outlined in the paragraph above.

A selected design-qualified engineering firm will execute tasks and develop products including, the National Environmental Policy Act (NEPA), design, utilities, and Right of Way approvals, including the Buy America Steel program, appropriate for Title 23 USC requirements and site conditions. The Manager, in consultation with FHWA will conduct subsequent product reviews and approvals as needed. If the project is funded for and scheduled for construction, the engineering firm will prepare construction bid documents for review and approval, and will execute subsequent advertising, selection and negotiation tasks for the Recipient.

CONSTRUCTION

Construction Management will be accomplished through a qualified construction management firm, selected by the Recipient through a competitive bid process compatible with Title 23 USC requirements. Prior to advertising, the project sponsor will submit the procurement process and advertising package to the Manager for approval.

If construction bid documents are not in place for the Denali Commission funded project, the selected engineering firm will prepare construction bid documents for approval, and will execute subsequent advertising, selection and negotiation tasks for the Recipient.

The Recipient, through the selected engineering firm, will execute construction under Davis-Bacon wage requirements and in accordance with the project's approved NEPA environmental documents, Corps of Engineers permits, and other federal, state and local permits.

The Recipient will ensure a clear Right of Way adequate for construction. The approved environmental and Right of Way documents will be retained in the project's file at the

Denali Commission. The Recipient is responsible for ongoing maintenance after construction is complete.

All Denali Commission funding is intended for use within the scope of work identified in the Award document only. Any balance of funds remaining after the full scope of work has been completed will be returned to the Denali Commission.

2. Milestones

The following milestones are identified as the major steps to be completed as part of the project. "Planned" dates for the first milestone are included here.
